### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows in view of providing proper legends for the drawings. Authorization for this examiner's amendment was given in a telephone interview with Hosoon Lee on 3/26/07.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

#### IN THE DRAWINGS:

- (1) Figures 1-7 should be designated by a legend such as --Prior Art--.

#### *Allowable Subject Matter*

3. Claims 19-30 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Regarding claims 19-30, the prior art fails to disclose or make obvious an image sensor comprising, in addition to the other recited features of the claim, an array of optical path conversion elements selected from the group consisting of aspheric micro lenses and aspheric micro reflecting mirrors, wherein incident surface of each optical path conversion element has a

tangent line gradient value to convert the optical path of light incident slantingly on a peripheral area of the image sensor at a larger inclination angle as the peripheral area is away from the center of the image sensor to be identical with the optical path of light incident vertically on a central area of the image sensor to counterbalance the inclination angle of light incident on the peripheral area of the image sensor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tan et al (6,043,481) and Kropp (5,902,997) are cited for disclosing an optoelectronic device with a lens body.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Pyo whose telephone number is (571) 272-2445. The examiner can normally be reached on Mon-Fri (with flexible hour), First Mon. off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Y. Epps can be reached on (571) 272-2328. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
